

Technical Researcher

(Location: Winnipeg preferred, or Ottawa)

The **Technical Researcher** will be an integral part of NVision's Lands Studio team. Working in the Lands Studio service basket, this role includes research, writing, map and plan preparation, conceptual design and technical drawing preparation, graphic design of reports, planning and design implementation, and engagement with clients and community members, and fieldwork.

Primary duties will include supporting the Lands Studio project team with project delivery.

About NVision's Lands Studio

The Lands Studio is common ground for creative endeavours related to the design, planning, and sharing of heritage and stories of significance. The award-winning Lands Studio team follows joint planning and design decision-making approaches that activate participant voices and are grounded in Indigenous values. Lands Studio's process is driven by client and community engagement and is based on information gathering and sharing, listening, and appreciation for all perspectives and actions with measurable outcomes. Projects range from the documentation of land use to the planning and design of Indigenous landscapes and community spaces. Communications, graphic design, mapping and interpretive materials enhance how stories are shared. Projects include:

- Indigenous Land Use, Parks & Heritage
- Collaborative Land Use Planning & Design
- Landscape Architecture
- Cultural Resource Inventories and Strategies
- Interpretive Planning & Design
- Graphic Design

Benefits

- Hybrid work arrangement
- Excellent career path potential
- Professional development opportunities
- Mentorship program
- Competitive compensation and benefits package
- Casual work environment
- Opportunity to make a **real** difference, on the ground in Indigenous communities and regions

Required Knowledge, Skills, Education/Training

1. University or College degree or equivalent certification in a discipline related to a specific area of corporate expertise: Land Use Planning, Landscape Architecture, Landscape Technician, Environmental Planning, Graphic Design.
2. One-two years or more of research experience directly related to this position through employment and/or University level supervised research position;
3. Expert knowledge and/or certification in MS Office suite of software;
4. Excellent knowledge of ArcGIS;
5. Excellent knowledge of the Adobe Creative Suite (Specifically InDesign, Illustrator, Photoshop, and Premiere Pro);
6. Excellent graphic communication skills (for example renderings, graphic design, visual communication);
7. Excellent analytical, organizational skills;
8. Excellent interpersonal skills, including strong verbal and written communications skills in English;
9. Security Clearance or the ability to obtain it.

Preferred Knowledge, Skills, Education/Training

1. Knowledge of Vectorworks (preferred), AutoCad, and/or SketchUp;
2. Indigenous ancestry (First Nations, Inuit, Métis);
3. Demonstrated knowledge and understanding of Indigenous cultures and histories in Canada.
4. Working knowledge of French and/or an Indigenous language is an asset.

Valued Indigenous Identity, Knowledge and Lived Experience

1. Indigenous ancestry (First Nations, Inuit, Métis) that can be confirmed (if requested by NVision), through one of the following ways:
 - a) Documentation such as Indian status card, Inuit enrolment card, evidence of enrolment as a modern treaty beneficiary, Métis citizenship card.
 - b) Lived experience demonstrated through cultural reclamation process or relationship to/with Indigenous communities, Nations or Peoples, and/or
 - c) A letter outlining your Indigenous ancestry, community and family/kinship ties.
2. Knowledge of an Indigenous language, in any capacity, from beginner to advanced, written or oral.
